# Conversation Questions for ESL Students

by [roadtogrammar.com](http://roadtogrammar.com)

## Suggested Use

Each set of conversations contains six questions on a particular topic. Most topics are suitable for pre-intermediate through intermediate level classes (B1/B2). The topics can be discussed in pairs, small groups or large groups. You should set aside 5-10 minutes for the activity.

A good strategy for using these sorts of questions is as follows:

1 Run through the questions quickly to make sure the class understands them.

2 Model one or two answers yourself.

3 Tell the class how long you expect them to work on the activity.

4 Split the class into groups and let them begin.

5 Monitor the groups to:

- make sure they are sticking to English
- help with vocabulary
- ensure they are answering in full (in particular, some questions are framed as YES/NO questions, but fuller answers are expected)

6 After their time is up, ask each group to share an answer briefly with the class.

## Online Version

There is an online version of these questions available here:
